2.1 Features:

2.2 Introduction:

This PoE switch (Managed switch) provides power and data from a single point, using Power over Ethernet (PoE)over a single Cat5 cable. It can be used for any 10/100/1000Mbps link PoE port with gigabit Uplink and supply industry-standard IEEE 802.3af/at power. Advanced auto-sensing algorithm gives power to 802.3af/at end devices, It also offer gigabit SFP Uplink which can be the most economic solution for long distance data transmission. In addition, the PoE switch automatically determines PoE requirements, speed, duplex. Easy to operate and reliable.

2.3 Typical Application:

2.4 Switch Installation
