5. Warranty

We provide one year limited warranty on our IoT gateways and 3-month limited warranty for accessories.

Extended warranty may apply according to the local law in which the product purchase took place. Please use 5V/1A power adapter with standard USB Interface, or 802.3at/af standard PoE power supply. Also note that two power supply cannot be connected at the same time.

Any damage to the IoT gateway caused by not following the instructions will render this warranty null and void. Any damage to the IoT gateway caused by modifying the PCBA, components or case will render this warranty null and void. We will NOT provide any support to the issues caused by using third-party firmware.

Any damage to the IoT gateway caused by product misuse shall not be covered by this warranty, including but not limited to improper voltage, operating in high temperature environment, water damage or fall damage.

Operating Temperature: 0~40 °C, Storage Temperature: -20~70 °C
