# GAOTek Wireless Bluetooth Healthcare

## 1. Product Overview:

This is a BLE radio transmitter contained in a small, waterproof casing. The tag is fully waterproof to allow for easy cleaning of all assets with the operations of a hospital or personal medical equipment. With a remarkably small profile, the tag can also be affixed easily on small, awkward spaces, such as scopes, infusion pumps, or today's more compact equipment in hospitals or raw materials in industries. It is, therefore, ideal for several industries that require asset tracking technology, such as medical, warehouse, logistics, and industrial.
